

DELIVERING WATER

WHERE IT'S NEEDED MOST

WHEN WATER BECOMES THE CHALLENGE

When trucks run dry and the nearest hydrant is miles away, success depends on getting water from the source to the fireline—fast.

BRINGING WATER TO THE FIRELINE — WHERE VEHICLES CAN'T REACH

Shibaura portable fire pumps are engineered to transform lakes, rivers, ponds, and other remote water sources into dependable firefighting water supplies.

FEATURED PRODUCTS

FF500AR-A
AUTOMATIC RELAY
Moves water farther
with fewer people

P572S-A
